

## Lawrence Station – Easier Access Project Elevator construction starting this summer

### Timeline: Starting Spring/Summer 2022

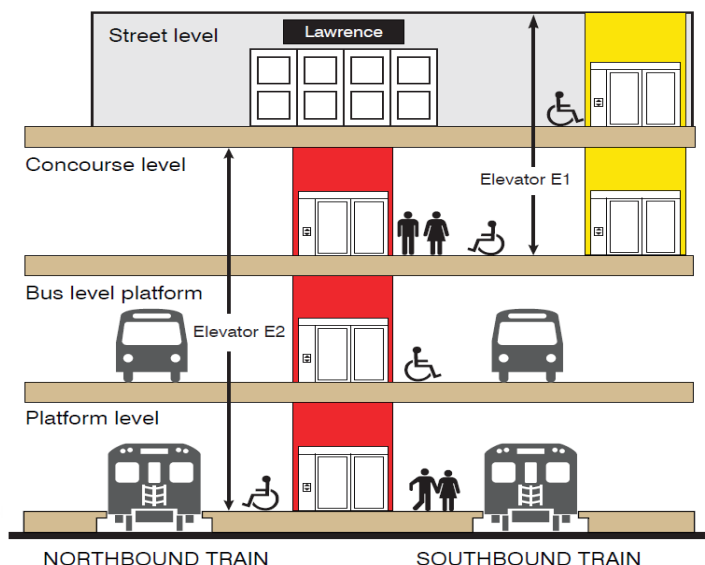

Content/timeline accurate at time of printing

#### What we are doing and why

The TTC is making stations accessible as part of the Easier Access program. This program includes the installation of elevators, accessible doors, and updated wayfinding signage to create a barrier-free path from street level, bus transfer level and the subway platform. Work is scheduled to begin Q2 this year and be completed by Q4 2024.

The Easier Access improvements will include:

- Two new elevators which will connect customers from the station entrance to the bus terminal and subway levels.
- New stairs from platform to concourse level of the station.
- Improved wayfinding and signage throughout the station.
- Accessible sliding doors at the main entrance, and barrier free doors throughout station.

#### Expected work activities

The first major phase of work will include activities for the new elevator shafts and new stairs, at all levels of Lawrence Station. Construction of all easy access improvements will be completed in Q4 2024.

#### Traffic, pedestrian and cyclist details

- Some restrictions will be required to safely complete the work:
  - Main entrances at the south end of Lawrence Station is planned to be closed for approximately eight months in 2023. Customers will be asked to use the Ranleigh Avenue, and Bedford Park Avenue entrances.
- Lawrence Station will be closed for three weekends in 2022. Shuttle buses will be deployed at street level during these closures, and a notice will be posted within the station in advance of impacted service.
- Night work is required on driveway at 3080 Yonge Street, two nights per week for debris removal and material delivery from vent shaft.

#### Work hours

Work will take place Monday to Friday between 7 a.m. and 7 p.m. Some work on Saturdays between 9 a.m. and 7 p.m. may be required to maintain schedule.

#### TTC service

Access to the south main entrance, including the bus transfer level, is planned to be closed in 2023 for approximately eight months. A notice will be posted within the station in advance of impacted service.

*Thank you for your patience as we work to make Lawrence Station accessible. An updated notice will be issued prior to construction starting. A project webpage is available at [www.ttc.ca/projects](http://www.ttc.ca/projects).*
