**504B**

**304**

**508**

**February 18 to December 2024**

Information accurate at time of printing, and is subject to change

February 2024

## King Street West watermain replacement and streetcar track renewal project

The City of Toronto and TTC will replace aging watermains and renew streetcar tracks along King Street West between Shaw Street and Dufferin Street. This work will cause several service changes to the following routes from February 18 to December 2024:

### 63 Ossington

63 Ossington buses will be extended to replace 504 King streetcars between Shaw Street and Roncesvalles Avenue. These buses will operate both-ways along Liberty Street, East Liberty Street and King Street West between Dufferin Street and Roncesvalles Avenue.

**IMPORTANT NOTE:** In Liberty Village, 63 Ossington buses will no longer circle the neighbourhood in one direction to and from Eglinton West Station. Instead, buses will travel both ways along Dufferin Street, Liberty Street, East Liberty Street and Strachan Avenue, terminating at Roncesvalles Avenue in the west and travel north to Eglinton West Station.

### 501A 501C 301 Queen

501A Queen streetcars will operate between McCaul Loop and Dufferin Gate Loop via Dufferin Street until 10 p.m. After 10 p.m., 501C Queen streetcars will operate between McCaul Loop and Long Branch Loop along Queen Street. 301 Queen streetcar service will remain unchanged.

### 504A 504B King

504 King streetcars will divert onto Queen Street West between Roncesvalles Avenue and Shaw Street. 504A King streetcars will continue to operate between Dundas West Station and Distillery Loop. 504B King streetcars will operate between Humber Loop and Broadview Station before 10 p.m. After 10 p.m., 504B King streetcars will operate between Roncesvalles Avenue and Broadview Station.

### 304 King

304 King streetcars will divert onto Queen Street West between Roncesvalles Avenue and Shaw Street, operating between Dundas West Station and Broadview Station.

Please see 508 Lake Shore details on the reverse side of this pamphlet.
