Decision: Events of January 30, 2018 on Line 1

At its meeting on February 15, 2018, the TTC Board adopted the recommendations in the staff report as follows:

It is recommended that:

1. TTC staff report to the May, 2018 Board meeting on possible bus and streetcar service and route changes that could help reduce overcrowding;
2. TTC staff report to the July, 2018 Board meeting on the analysis of peak and off peak fares as part of the 2018 Ridership Growth Strategy analysis report; and
3. TTC staff forward this report to all members of City Council for information.

The Board also adopted the following member motion:

That TTC staff incorporate within the current emergency response procedures model, in partnership with City of Toronto emergency services stakeholders, a mock simulation scenario that as close as possible reflects the conditions present in the subway system on January 30, 2018.
